SUPPLEMENTAL INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents  
P. O. Box 1450  
Alexandria, VA 22313-1450

Sir:

This statement is filed in the application identified above pursuant  
to 37 C.F.R. § 1.56. No representation is intended that a complete search has been made of  
the prior art or that no better art references than those listed on the attached PTO Form 1449  
are available. The filing of this Statement shall not be construed to be an admission that the  
information cited in the Statement is, or is considered to be, material to patentability as  
defined in § 1.56(b).

The Memorandum Opinion & Order submitted herewith indicates that U.S. Patent Application No. 09/566,063 may disclose subject matter similar, and possibly identical in some respects, to the specification of U.S. Patent No. 6,490,093. A copy of U.S. Patent Application No. 09/566,063 is not currently available to the undersigned. However, the examiner has access to U.S. Patent Application No. 09/566,063 in the records of the U.S. Patent and Trademark Office and may wish to review that patent application to determine whether it is material to the patentability of the above-captioned patent application.

None of the prior art listed on the attached PTO Form 1449 is believed to disclose or suggest the invention recited in the claims of the above-identified application. It is therefore believed that the claimed invention is patentably distinguishable over these references.

Please charge any fees that might be due in connection with this Information Disclosure Statement to Barnes & Thornburg Deposit Account No. 10-0435, with reference to our matter number 3044-73785.

Respectfully submitted,

BARNES & THORNBURG
